

## CLIENT TESTIMONIALS

*"It is unbelievably wonderful – You have given us the Mona Lisa!"* - D.E. South of France.

*"You have demonstrated to us the enormous possibilities of imaginative water creations, and left many memorable visions in our minds. Your book was our best selling book of all time."* - A.P.L.D.

*"Some bills are a pleasure to pay. This is one of them. At the house on this crystal clear day, the pond continuing to fill, we could see even more definitely than yesterday, how beautiful it will be and how very much we'll enjoy it."*  
- P.H. - Connecticut

*"Absolutely at the top of his profession – a designer & builder probably without peer."* - Aqua Show attendee

*"Thanks again for the beautiful pond and all your wonderful work to make it so beautiful – it's already a magnet for us & all our guests."* - J.G. – NY

*"Mr. Archer-Wills is a landscape architect with unique, world class skills. He has handled complex & demanding major projects in Europe, South America & elsewhere. I have had the privilege of seeing several of these works & have been left awed – whether it is his skill in selecting & moving multi-ton boulders or blending plant material into the composite of the water feature. His is truly a unique gift."* - J.L. – Waterford Gardens

*"People I spoke with were blown away by his work, its scale and the detail involved. He indeed is the authority on water gardening."* - S.S - New York Botanic Garden

*"Most natural looking streams I've ever seen. You'd never know they were man made."* - Aqua Show conference

*"You were great. I think the audience was absolutely fascinated by the technology. You stretched their imaginations esthetically as well."* - Mad Gardeners Symposium

*"You were sensational. The best I ever heard. I know people were blown away by it as so many stayed to ask questions. Your slides are breathtaking and so are your projects. I just loved it."* - L.M. – New York Botanic Garden

*"He is without doubt the poet laureate of naturalistic watergardens, a trailblazer and pioneer, an inspiration to countless others who do all they can do to follow in his footsteps and the driving force behind some of the most stunning compositions in rocks, plants earth and water ever created by anyone, anywhere."*  
- Eric Herman – Watershapes Magazine.

*"It was your vision that enabled us to see our way forward. You've personally created, with your art and your skills, most of the beauty we can now see around us. During your sojourn here, you've left an indelible imprint on the landscape; one I believe will be admired, enjoyed and associated with your name for hundreds of years."*  
- W.Z. – USA

*"Anthony has a magic touch in creating a naturalistic waterland setting."*  
- Professor Bill Niering, Wetlands Authority
